Organization: Center for Inquiry

General Comment

Please enact the Department of Health and Human Services (HHS) new guidelines as proposed. These new guidelines require health insurance providers and organizations providing health care plans to cover preventive health services, such as contraception, without charging a co-payment. The Center for Inquiry (CFI) considers this an important step forward for reproductive rights and health care.

Keep Religion out of our discussions about healthcare. Let all Americans receive the benefit of preventative health services without interference from churches, synagogues, mosques, etc.
